

Digital Safety Policy

Including E-Safety, Digital Safety Agreement

1 Introduction

- 1.1 This Digital Safety Policy sets out the roles, responsibilities and procedures for the acceptable, safe, and responsible use of all digital and communication technologies, including the use of school based devices, the internet, email, instant messaging and other social networking technologies and mobile phones and games, to safeguard adults and pupils. It details how the school will provide support and guidance to parents and the students for the safe and responsible use of these technologies. It also explains procedures for any unacceptable use or misuse of these technologies by adults or pupils.
- 1.2 The use of the internet as a tool to develop teaching, learning and administration has become an integral part of school and home life. There are always going to be risks with using any form of communication which lies within the public domain. Therefore, it is imperative that there are clear rules, procedures and guidelines to minimise those risks whilst pupils use these technologies. These risks include:
- Being vulnerable to inappropriate contact from strangers;
 - Cyber-bullying;
 - Illegal activities of downloading or copying any copyright materials and file-sharing via the internet or mobile devices;
 - Issues with spam and other inappropriate email;
 - Online content which is abusive, offensive, or pornographic;
 - The use of social media to encourage extremism; and
 - Viruses.
- 1.3 It is also important that staff are clear about the procedures, for example only contacting pupils about homework via the school's (Sophia) Learning Portal (VLE), not via personal emails.
- 1.4 Whilst we endeavour to safeguard and mitigate against all risks, we will never be able to completely eliminate them all. Any incidents that may come to our notice will be dealt with quickly and according to the school's policies to ensure the school continues to protect pupils.
- 1.5 The involvement of pupils and parents is also vital to the successful use of digital technologies. This policy thus also aims to inform how parents and pupils are part of the procedures and how pupils are educated to be safe and responsible users so that they can make good judgments about information they see, find and use.

2 Aims of this Policy

- To ensure the safeguarding of all pupils within the school by detailing appropriate and acceptable use of all online and digital technologies.
- To outline the roles and responsibilities of all pupils, staff and parents.
- To ensure all pupils, staff and parents are clear about procedures for misuse of any online technologies.
- To develop links with parents and the wider community to ensure continued awareness of online technologies.

3 Pupils

3.1 Our pupils:

- Are involved in the review of our Digital Safety Agreement through discussion in lessons and other forums, in an age appropriate way;

4 Inappropriate Use by Pupils

- 4.1 Should a pupil use the internet whilst not on the school premises in such a way as to cause hurt or harm to a member of the school community, the school will act quickly and in accordance with our Behaviour Policy

Parents

- 6.1 All parents have access to a copy of this Digital Safety Policy on our website. Parents are asked to explain and discuss the rules with their child, where appropriate, so that they are clearly understood and accepted.
- 6.2 Parents should be aware that the school cannot take responsibility for a pupil's misuse or abuse of IT equipment when they are not on the school premises. This includes social networking with other pupils, and the possibility of pupils accessing inappropriate content. However, should parents or guardians become aware of an issue, we strongly encourage prompt communication with the school so we can offer advice and support. The school has a duty to report serious concerns to local authority safeguarding teams or to the police, in line with statutory requirements.

7 The Curriculum

- 7.1 The school teaches our pupils how to use the internet safely and responsibly, for researching information, exploring concepts, deepening knowledge and understanding, and communicating effectively in order to further learning, through our IPC and IMYC. The following concepts, skills and competencies are taught through the school in an age appropriate manner:

8 Monitoring

- 8.1 It is the responsibility of the school to ensure appropriate systems and technologies are in place to monitor and maintain the safeguarding and security of everyone using the school network. The school will monitor the use of online technologies and the use of the internet by pupils and staff, **within reason** – as all lessons will be recorded.
